

The Aylesbury Vale Academy

Career Pathways 2022-2024

Leading to a brighter future...

STRONG • SUCCESSFUL • SUPPORTIVE

Introduction

The Sixth Form at Aylesbury Vale Academy is very successful and prepares the next generation of graduates and leaders by providing a strong and supportive learning experience.

We are proud to welcome you to our steadily growing Sixth Form. Our commitment is to ensure that every student leaves us, prepared to thrive in higher education and fulfil their career goals. We are very proud of our students' successes. In 2021, all our students were offered their first choice university and our average grade of Distinction*, on Level 3 vocational courses, put us well above national average.

Our Sixth Form is increasingly becoming the natural choice for progression for our Year 11, AVA students. Keeping their best interests at heart, we provide one to one guidance and support to help them make their choices suited to their aspirations and goals.

We encourage all students, parents and guardians to email us with any enquiries and information regarding the exciting range of options we have on offer via **avasixthform@theacademy.me**

Mrs. Sharma

Achievement Director for Sixth Form

Overview

Subjects on Offer

You can opt to do a full-time study in one subject area, 3 A level equivalent, vocational qualification in any one of the following:

- ✓ BTEC National Level 3 Extended Diploma in Business
- ✓ BTEC National Level 3 Extended Diploma in Health and Social Care
- ✓ BTEC National Level 3 Extended Diploma in Creative Digital Media Production
- ✓ T Level in Childcare and Education

Or you can opt to do a range of subjects combining BTECs and A levels, or just A Levels.

Minimum requirements:

We ideally require a minimum of a grade 4 in 5 GCSE / vocational subjects including Maths and English for admission into our Sixth Form for all our vocational qualifications.

For A level courses; Maths, English Literature and Psychology we require a minimum grade of 6 in Maths and English.

We provide an excellent support programme for resits in English and Maths for students who do not achieve a level 4 at the end of year 11. We are proud to share that our year 13s achieved a 100% pass rate in both subjects in 2021.

* Please go to www.theacademy.me/sixthform/courses to find out course details.

Please note:

Final confirmation of which courses will run will be made in summer 2022 once timetabling, staffing and the number of applicants for courses is known.

Creative Industries

Creative Industries Pathway

Level 2 Qualifications Needed:

Level 3 Qualification to Study:

Potential University Opportunities:

Potential Job Opportunities:

GCSE

Resits

If you are required to resit either GCSE English or GCSE Maths you will be supported by highly experienced teachers to enable you to achieve your full potential. We are proud of our GCSE English and GCSE resit results which constantly put us above the National average. Last year our year 13's achieved a 100% pass rate in both subjects.

"Achieve your full potential"

RAR Awards

Respect, Aspiration & Resilience

To support students in recognising, developing and demonstrating the key values of the academy, we present RAR Awards at the end of each term at the Sixth Form. Students can achieve these awards in a range of areas.

The awards recognise several aspects: attendance, punctuality and professional dress, performance at the work experience placement; two activities from a wide list of community service activities such as being a mentoring buddy, leading a charity event or taking on a student leadership role. These awards help to inform UCAS applications, job references, personal statements etc.

#AVASIXTHFORM

Activities

Beyond the Classroom

All Sixth Form students are also strongly encouraged to get involved in a variety of activities beyond the classroom that enhance their personal development in new and exciting ways. For example, our weekly Inspiration Programme in Year 12 prepares our students work life after school by providing hands-on practical experiences with real world organisations. Throughout the year, students learn about work, life, arts and culture, police and criminal justice, community and environment as well as personal health and wellbeing. They acquire specific skills for CV writing and the career options available to them. We provide relevant work experience opportunities through our excellent links with employers to extend their learning beyond the taught curriculum.

In addition, we take pride in our ongoing success with the Young Enterprise initiative. Our students have consistently received awards and recognition in a wide range of categories locally and nationally.

For example, last year the YE team were awarded a business contract from a local housing developer for their recycled home product. Furthermore, the team were awarded the second place for The Company of the Year Award at county level.

Building on their cultural capital, all subject areas organise relevant educational trips and workshops to extend the students awareness and learning. For example, the Health and Social Care students visited a local care home to develop an understanding of how person-centred care is delivered. Furthermore, students are encouraged to join the Student Parliament, become a mentor to younger students and become ambassadors at events run by the Academy.

All of these opportunities allow our students to develop the outstanding communication and leadership skills needed to successfully tackle the demands of further education and employment.
